

INJECTION MOLDING AND MANUFACTURING

Let our team become your team. Our injection molding specialists seamlessly integrate to become your manufacturing resource. Bring us in at any phase of your project, from prototyping and initial design to production and on-demand manufacturing.

Contact us at 1-866-265-1486 or sales@druckerdiagnostics.com to learn more.

YOUR BENEFITS INCLUDE:

- Design & engineering support
- On demand production at any scale
- Quick turnaround on all parts
- Fast shipping
- Mold design team
- ISO 13485 certification
- Tight tolerance molding
- 40-500 ton injection molding machines

MORE THAN MOLDING

We deliver your parts as production-ready as possible. Drucker Diagnostics injection molding offers press-side assembly, drilling, pad printing, and more to ensure every part can be produced to your exact specifications. These specialized finishing operations offer maximum customization to streamline your process.

Leverage our years of expertise at every phase of your project. Let our team become your team.

Contact us at 1-866-265-1486 or sales@druckerdiagnostics.com to learn more.

VALUE ADDED MANUFACTURING

- Press-side machining
- Press-side drilling
- Precision CNC finishing
- Pad printing
- Overmolding
- UV printing for complex labeling
